DATA SHEET

NATURAL TINT EURO-TINT

Tint composed of a mixture of natural wax (99%) and inorganic pigments (1%). It is manufactured in several colors: White, Red, Black, Brown, Ocher, Yellow, Green, Blue and Neutral.

APPLICATIONS

Euro-Tint is the ideal dye to color the work done with PLASTITE Multiacabado for its multiple combinations and its final result, giving great naturalness to the different finishes. It admits the mixture of different colors with each other.

PRECAUTIONS

Euro-Tint should not approach the fire. Being its natural wax base, it tends to become liquid. When it is not used for a long time, it contracts and loses volume in its original packaging, recovering its volume and normal appearance by mixing with a little normal solvent.

APPLICATION

Extend homogenously Euro-Tint with a sponge, and revise leaving more or less dye according to the desired final appearance. It can also be diluted with solvent and converted into liquid applicable by brush, such as paint.

CHARACTERISTICS:

*Natural product
Not flammable
Waterproof*
